

Export Restrictions

Last updated: July 2016

The Snap Trends Software (“ST Software”) is subject to various United States Government export restrictions. If you are: (a) in a country to which the United States has restricted export for anti-terrorism reasons or a national of any such country, regardless of location; (b) in a country to which the United States has embargoed or restricted the export of goods or services, or a national of any such country, regardless of location; or (c) a person or entity who has been banned from participating in the United States export transactions by any agency of the United States government, then you may not set up, download, gain admittance, use, or license the ST Software.

By entering into any ST Software license, you represent to Snap Trends, Inc. that 1) you do not match any of the criteria (a), (b), or (c) set forth above; 2) you will not export or re-export the ST Software to any country or entity subject to U.S. export restrictions, including those persons and entities that match any of the criteria set in (a), (b), or (c) above; and 3) neither the United States Bureau of Industry and Security, nor any other U.S. Federal agency, has suspended, ceased, or denied your export privileges.

Snap Trends, Inc. makes no representation or warranty to the precision or reliability of the classifications below, and any use of classifications by the individual is at the individual’s risk and with no recourse to Snap Trends. Snap Trends is not liable for individuals suffering any damages directly or indirectly as a result of using such classifications.

Product Name	ECCN	Embargoed Countries	All Other Countries	License Exception
Snap Trends or “ST Software”	5D922-B	Strictly Prohibited	No License Required “NLR”	N/A

ECCN is the Export Control Classification Number appointed by the United States Department of Commerce - Bureau of Industry and Security. The ECCN commodity classification number establishes the level of export control for a specific product. The ST Software is classified under the ECCN 5D992-B. This classification is for software, including ones that use encryption technology and is eligible for export to all countries, except for the Embargoed Countries.

Embargoed Countries

The U.S. holds strict and total trade embargoes against the following countries: Burma, Cuba, Iran, North Korea, Sudan, and Syria. The exportation, re-exportation, sale or supply, both directly and

indirectly, from the United States, or by a U.S. person wherever located, of any Snap Trends, Inc. services or technology (including the ST Software), including technical data, to any of these countries is strictly prohibited.

All Other Countries

In all other countries, the license type most applicable for the listed ECCN is provided. For the ECCN 5D922 classification, an export license is not required. Therefore, it is noted as no license required.

License Exception

An export license is NOT required when product falls under one of the following License Exceptions: No License Required (or “NLR”).

Additional Information

To review additional information relating to export authorization relating to U.S. goods and services, please visit the United States Department of Commerce - Bureau of Industry and Security website:
